

RUYTON

WE BELIEVE IN GIRLS

STRATEGIC PLAN 2023 AND BEYOND

FEARLESS PURSUIT

As an independent, forward thinking girls' school we are committed to preparing girls for a lifetime of learning, leadership and engagement in our global community.

Our school was established and nurtured through the foresight and courage of trailblazers. Over the decades our bold leaders have remained steadfast in their future-focused commitment to educating students for the challenging world we live in. This vision is ingrained in the fabric of our school as we inspire girls to be bold and educate them to lead lives of impact and purpose.

Our size and structure strengthen our unwavering focus on each individual student in our care. At Ruyton, learning is personal. We recognise the future is inherently unknown as it is in the making and with this knowledge, we have devised a five-year strategic plan with a ten-year horizon.

Fearless Pursuit launches an adventurous series of pathways as we explore the possible, plausible and probable futures in our context and culture.

Through the realisation of this plan, we will build on the known, using our experience and knowledge and alongside our collaborative partnerships and alliances, to best meet the challenges of a rapidly changing world.
